WHY A WEBSITE FROM FINDING GODSWAY?

No church is too small, or congregation too old, to have a website.

With all of the obstacles and challenges facing today's church and ministry, a really good website providing a solid web presence is more important than ever.

That being said, we at Finding GodsWay are committed to providing the very best in websites and web services to Churches, Ministries, and Organizations.

One claim to fame is our FGW Web Assistant program. With this we will help you with content management by keeping your important information, events, and happenings current on your site.

Everyone affiliated with Finding GodsWay is a long-standing member of the Methodist Church. With that, we provide a service our clients love. It's called the FGW Web Assistant. Through this, we will help keep your website content up-to-date.

Send us your bulletins, newsletters, and any other pertinent literature on a regular basis. We will pull information from those documents and place it on your website for you. We will even design simple web graphics for your important events.

This great service is provided for you, with our compliments, at *no extra charge*.

FGW is best known for building and managing websites for churches and customizing them to meet your exact needs. While the digital web landscape is always evolving, we ensure that our client sites are state of the art, and designed to scale up and down to fit any screen size - computer, smartphone, tablet, or even large-screen HDTVs.

We offer three Web Packages; Stewards, Disciples, and Apostles.

- The **Stewards Web Package** is a good fit for those wanting an informational website. This package is great in providing all kinds of information about your church and ministry.
- The **Disciples Web Package** is an intermediate interactive website that not only provides your web visitors with the information needed about your church and ministry but gives you a dynamic online library and Photo Gallery as well.
- The **Apostles Web Package** is an advanced media website that provides everything the Stewards and Disciples Web Packages has to offer but equips you with a Media Center and Media Player to play and house any media files. This encompasses recorded worship video and audio files, bible studies, pastor's messages, teachings, legal music, and more.

If you are live streaming on YouTube, Facebook, or house-recorded videos on these platforms, we will embed those videos on your website to give your web visitors the choice of watching your videos on your site, as well as your social media platforms. This service is included in all of our Web Packages.
